SUMMARY

Motivated and ambitious B.Tech Computer Science Engineering (Artificial Intelligence & Machine Learning) student at Dayananda Sagar University. Passionate about Artificial Intelligence, Machine Learning, Full-Stack Development, and Software Engineering. Skilled in Java, JavaScript, MongoDB, SQL, Linux, and Machine Learning fundamentals. Experienced in developing innovative projects involving AI-driven solutions, traffic prediction systems, and safety-focused applications. Currently focused on strengthening Data Structures & Algorithms, Web Development, and AI technologies to become industry-ready for software engineering and AIML roles.

EDUCATION

Dayananda Sagar University

Bachelor of Technology (B.Tech), Computer Science Engineering – Artificial Intelligence & Machine Learning,
CGPA: 6.2 / 10 Expected Graduation: 2028

PROJECTS

Sarathi – Advanced Women Safety Transportation Platform

- Designed a women-focused smart transportation and cab safety solution inspired by ride-hailing platforms.
- Integrated safety-oriented concepts including location tracking, emergency response mechanisms, and enhanced passenger security.
- Focused on leveraging modern technology to improve transportation safety and trust.

Smart Traffic Congestion Predictor

- Developed a Machine Learning-based traffic prediction system.
- Utilized historical traffic data and predictive analytics techniques.
- Aimed to forecast congestion levels and assist in efficient route planning.

Payflow – Personal Finance Management Application

- Building a finance management application for tracking expenses, income, and savings.
- Designed budgeting and financial monitoring features.
- Focused on improving personal financial awareness and management.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, HTML, CSS

Databases: MongoDB, MySQL

Machine Learning: Fundamentals, Random Forest, Decision Trees, Classification, Regression

Technologies: React (Learning), Retrieval-Augmented Generation (RAG) Concepts

Tools: Git, GitHub, Linux, VS Code

CERTIFICATIONS

- Linux for Beginners — Infosys Springboard — Completed
- JavaScript Programming — Course Completed
- MongoDB Fundamentals — Course Completed

RELEVANT COURSEWORK

Object-Oriented Programming; Data Structures & Algorithms; Database Management Systems; Machine Learning; Artificial Intelligence; Operating Systems; Computer Networks

CAREER OBJECTIVE

To secure internship and software engineering opportunities where I can apply my knowledge of Artificial

Intelligence, Machine Learning, and Full-Stack Development while continuously learning and contributing to impactful real-world solutions.
